

Worksheet 2: Cause and Consequence Analysis

Distinguish between causes and antecedent events and consequence and subsequent (after-the-fact) events associated with a development in your selected Project 44 Liberation Story Map.

Instructions:

- Identify and describe a development in your chosen story map.
- Determine whether associated events are: antecedent events (preceding but not causal), causes, consequences, or subsequent events (after-the-fact) by placing an “X” in the appropriate column on the right.
- Complete the questions at the bottom of the page

Development in the Story:		Pre-		Post-	
		Antecedent Event	Cause	Consequence	Subsequent Event
Associated Event	Description:				
Associated Event:	Description:				
Associated Event:	Description:				

Rank your causes in order of their effect on development. Explain your reasoning.
