- 1) As a group, research Indigenous Peoples (in Canada) related to your topic.
- 2) Make a list of 5 individuals you think the class should know about.
- 3) Prepare a short presentation to share the 5 people you select and provide more information about 2 of the 5 people. You can include why your group felt they were important to share about, where are they from, what have they accomplished.

We will sit as a class in a circle to share each group's selected individuals.

You can have 1-2 members of your group share back to the class (from your seats or from the front).

Preparing a short slideshow with images is optional.
